1. Actual audited expenses for the program in question resulted in an expenditure of [redacted] above that available for the contract. Letter CO-781 dated 14 January 1964, stated that verbal directions, at the time that the contract was in effect, were made for continuance of the developmental program. Soon thereafter, as a result of conversations between the contractor and the Contracting Officer, it was made clear that the Government did not intend to continue the program and all work was discontinued at this later date.

2. Letter CO-810 dated 30 January 1964, revised the previous amount to [redacted] after a telephone conversation with [redacted] the Contracting Office. Although there seems to be some doubt concerning the verbal authorization for continued work on the contract, it is evident that there is no way to check its validity; therefore, the Office of Logistics is willing to pay [redacted] the amount stated in their letter.
